NEWSLETTER

September/October, 2018

From the Principal's Desk

September, 2018

Dear Lowrey Families,

Happy fall! Welcome back to another wonderful school year. The Lowrey staff and I would like to extend a warm welcome to you all. We are excited about another safe, happy, and successful school year. The excellent learning and productivity of our Lowrey community is well underway already as we move into October. We look forward to working closely with all of our families to ensure a successful and amazing school year. Our goal is always to establish effective and dependable school-to-home communication. This monthly newsletter, parent monthly meetings, and Coffee with the Principal are just a few of the ways we strive to keep you informed and involved in our daily operations. In addition, know that you are always welcome to call and set up an appointment to meet with Mr. Bazzi or Mrs. Sabbagh, our Assistant Principals at Lowrey.

As most successful schools do, we kick off the school year with our code of conduct assemblies. It is vital for you to be aware of all the policies and rules outlined therein. The contracts you have each submitted, signed by both you and your children indicate your committed understanding and agreement to adhere to the rules. The code of conduct is in place to ensure that we can function during the school year in the most safe and efficient manner possible. We encourage you to keep a copy of this and to be familiar with the code of conduct as it can be very helpful in avoiding confusion, disappointments and frustrations. We pride ourselves in reaching out to our families with warmth and sincerity with hopes of fostering great relationships between school and home. As with all good relationships, we hope for a most constructive collaboration with all of you in nurturing and building mature, respectful and successful students. I have provided you with several free educational websites that are aimed toward enhancing your children's education and learning. Please encourage them to read and sharpen their skills at home as much as possible.

Lastly, please share in our excitement and dedication to creating a fabulous learning environment and community by becoming actively involved in our PTA. Join the other wonderful parents that go above and beyond to make all things possible for our students.

Mrs. Rima Younes,
Principal

From the Middle School Assistant Principal:

Dear Lowrey Families,

Welcome back to another successful year. It has been wonderful to see all the students and their families after summer break! It is an honor to serve you all, and a pleasure to work so closely with your amazing children to ensure they are as successful as possible. The ability to interact and be involved with students on a daily basis is both rejuvenating and rewarding!

At the beginning of every year, I like to share that one of my core philosophies is that building strong relationships can lead to great successes. Together, hand in hand, we can make a significant impact to help your children reach their maximum potential. I will always have the interests of the students as my primary focus and I will push them to grow and achieve goals that they did not think were even possible. We will continue to work very hard as a team to maintain our standing as a high achieving school!

To support your child and take part in his/her education, we ask that you please review the Code Of Conduct packet that you should have received and signed along with your child. The Code of Conduct is put in place and implemented to help keep your child safe and to ensure that students are responsible and accountable for their actions; this contributes to their social and emotional growth and is directly linked to their academic success.

Communication is critical to me so please do not hesitate to call, email, or personally speak to me when you see me. I welcome any and all contact with parents, students and members of our wonderful community. We encourage parents to stay updated on our school news by reading our monthly newsletter, visiting our school blog: lowrey.dearbornschools.org and by attending our monthly parent meeting (first meeting will be September 26th at 8:45 am). As always, if you have any concerns, suggestions, and/or questions, please call the office at 313-827-1800. We are always available to help support your children.

Respectfully,
Mirvat Sabbagh
Assistant Principal of Middle School
Lowrey School
Email: sabbagm1@dearbornschools.org

From the Elementary Assistant Principal:

Dear Families,

Welcome back to another great year at Lowrey school. First of all I would like to introduce myself. My name is Kamel Bazzi and I am the new assistant principal for the elementary school. I have been working in the Dearborn schools for over 21 years and seven of those years as an administrator. I am happy to be here and to make sure your child receives the best education possible. I always put students first, and I will strive to make sure they feel safe and happy at Lowrey School.

You will soon begin to notice a change in our very warm weather. For the comfort and wellbeing of your children, please be sure to encourage them to come to school in layers. A light jacket, sweater or hoodie will help to keep them warm while they wait outside at their entry door. Students will not be allowed to wait in the building unless the temperature is 20 degrees or below.

It is very important to keep up with your child's progress while they are in school. High parent involvement in schools is linked to student achievement. Here are some helpful tips to help you stay involved in your child's education:

Daily mandatory checks of your child's homework folder and/or planner

Keep up on school news on our school blog: lowrey.dearbornschools.org

Attend our monthly parent meeting (September 26 at 8:45 am)

Join our Lowrey PTA (\$10 per family)

As always, if you have any concern or questions, please call the office at 313-827-1800. We are always available to help support your children.

Sincerely,

Mr. Kamel Bazzi

Assistant Principal

Lowrey Elementary School

Halloween Parade

Wednesday October 31st, Halloween Parade. KG-2nd grade will walk in the parade from 2:00 – 2:30. 3rd – 5th Grade may dress up in the afternoon, but remember no masks, weapons, face paint, are allowed. Students may pass out treats at the end of the day (2:30-3:00). If you have any question, please call the office at (313)827-1800.

Important Notes:

Medication

Please note that students are not permitted to self administer prescription or over the counter medications during school hours. If your physician has determined that medication has to be taken during the school day, a Medical Authorization Form, available in the office must be completely filled out and signed by both the physician and the parent. The form and medication must be submitted to the office. Your child must report to the office to receive their medication and this will be documented.. This policy of the Dearborn Public Schools is in accordance with General School Law (Section 380.11780).

Reporting an absence/tardy

Please call before 8:00 a.m. on the day the student will be absent or late. If we do not receive a call from a parent regarding the student absence, a call will be made to your home phone to notify you of the absence. If a student must leave school due to illness or an appointment, a parent or guardian will be required to sign them out from the office, please do not go to your child's classroom. If the student returns to school during the day, he/she must report to the office to sign in and get a pass back to class. Homework can be requested if a student is absent three consecutive days.

Morning/Dismissal

As a reminder, Lowrey students are not to arrive at school until 7:45 a.m. **Students should not arrive early**, unless they are going to the cafeteria for breakfast or going to morning tutoring. Dismissal times are 2:55 pm for Middle School and 3:00 pm for Elementary. Furthermore, when elementary parents are in the Teachers are instructed to walk all students outside at dismissal time. We would like all parents to wait either in their cars or outside their child's exit door.

Response to Bullying

You can support us by making sure that your child doesn't bully others emotionally or physically, and also by ensuring that they don't stand by or be part of bullying. Although this problem isn't unique to our district, we are addressing it with passion to ensure our students have a safe and healthy experience at school. Please contact us if you have any questions, and we'll be happy to talk to you about ways you can address these issues with your child.

Bus Riders

Please remind your children if they are bus riders that they need to report directly to the bus at dismissal time. This will ensure that the bus is departing the school and dropping off students at home in a timely manner. Please remind your children that waiting or looking for friends while the bus waits for them is not acceptable.

Important Dates:

❖ 2-2:30pm

October Middle School Game Schedule:

Boy's Football

10/5 Lowrey @ Unis

10/11 Salina @ Lowrey

10/25 Stout @ Lowrey

Girl's Volleyball

9/26 Salina @ Lowrey

10/3 Stout @ Lowrey

10/5 Lowrey @ Bryant

10/10 Lowrey @ Smith

10/19 Unis @ Lowrey

10/24 Lowrey @ Salina

Other Important Dates:

9/26 Parent Meeting in the Cafeteria

❖ 8:45AM

9/28 Kindergarten no school

❖ No school for Kindergarten ONLY

9/12 Half Day for all students

10/15 Cipriano Run @ Ford Field

❖ 4:00-6:00 pm

10/17 Late Start all students

10/25 Parent meeting/ Chatting with the superintendent

❖ 8:30-9:30 am

10/26 No School for Kindergarten Only

10/31 Halloween Parade/ K-2nd

PTA Corner:

The PTA would like to thank all the parents and teachers who have been involved with the events and meetings. The PTA would also like to inform nonmember that membership is still open to those whom would like to join. If you are interested, please email

PTA_Lowrey@Yahoo.com, or leave a note in the PTA mailbox located in the Main Office.

Reminders:

Volunteers for PTA are welcome. Please contact the main office for more information @ 313-827-1800.

Grade Level News

Kindergarten:

From the desk of the Kindergarten Teachers

When it comes to excellence, Kindergarten teachers' believe it can be best defined in the results. True excellence will be seen in motivated, engaged children with empowering memories of learning to read and write and the stamina for independent acts of literacy. These are the children who meet high Common Core Standards in literacy and beyond.

Excellence in kindergarten literacy is the vital foundation for bridging the achievement gap and building schools of ambitious, self-regulated readers and writers. Experiences in the educational arts engage children's multiple ways of learning while promoting creative and higher-order thinking; they take advantage of how the young child's brain learns best. Developing social-emotional intelligence supports children in being successful in school . . . and in life. Yes, we are preparing our children for the 21st century!! Writing is the key that unlocks the alphabetic code. So, collaboratively the Kindergarten teachers' definition of excellence includes cooperative learning, rich experiences in the arts, science exploration, respectful and supportive parent connections, a language-intensive "writing-to-read" environment, systematic phonemic awareness through songs, and an explicit multisensory ABC and phonics immersion program within a comprehensive literacy framework. So please continue to work with your child on their new literacy work at home through reading their mini-books and reading to them each and every day!!!

First Grade:

Dear First Grade Families,

What a great start to a new year. We have had a wonderful time getting to know your children. First grade is a tremendous learning year full of growth and independence. Please help your children succeed in school by making school a priority. It is important for your children to be on time for school. We will pick students up at the flagpole door at 8:00am. Help your children be prepared for school as well. Come with homework folder, completed homework and reading bag every day. Provide a quiet homework spot for your children to work at home. Most importantly, encourage your children to succeed and instill a love for learning. Read to and with your children every day!

Sincerely,

First Grade Teachers

Second Grade:

Welcome Back!

What a wonderful start to the year! Students are quickly establishing routines, making friends and writing about their experiences. Open house was a big success with a great turn out of caring parents showing interest in their child's education. NWEA testing has been in place to show a true measure of where to begin with each child. Teachers are working hard with daily 5 reading strategies, reading groups, math, science, and writing! A special thanks to parents for making sure all reading logs and planners are signed daily. You are a big part of their success! Thank you, The second grade team!

Third Grade:

Welcome to the start of a very successful and exciting third grade year. This school year, your students will continue to grow as readers, writers, scientists, and mathematicians. Students are quickly establishing routines, and developing great friendships. NWEA testing has been in place to show a true measure of where to begin with each child. In order to ensure that your student succeeds, we will foster a positive, caring, safe, nurturing, and respectful learning environment.

All third graders should expect to receive homework every night. Your child should be reading for 30 minutes each night including weekends. A great website to listen to reading is www.mel.org:

1. Click Kids 2. Click Storytime 3. Click Book Flix and visit local libraries. Please encourage your child to pick just-right books and talk about the stories with you.

Student Expectations: Students are expected to complete their homework every night and come to school on time ready to learn. Please check and sign your child's agenda nightly. The agenda will be used as a communication tool between you and the teacher.

We look forward to working with you to meet the individual needs of your child.

Thank you Third Grade Team!

Fourth Grade:

Dear 4th Grade Families,

It's with great honor and gratitude that we welcome you and your child to a new, productive, and preparatory school year at Lowrey Elementary School. We would like to take this opportunity to provide you with quick synopsis of our curriculum resources. We are in the second week of school and many learning activities have been taking place already. Starting with Math, this year we are adopting new curriculum resource called, Eureka Math. Eureka Math is a Common Core (CC) - aligned curriculum that equates mathematical concepts to stories, with the aim to develop conceptual understanding. It focuses on the process instead of answers, such practice will ensure our students' college and career readiness. Moving into Language Arts and Reading, we are continuing to use Daily 5 and CAFÉ Menu as a framework or our daily Literacy, along with imbedding CC, best practices, and research based strategies into daily reading and writing. Literacy block never ends as we continue to integrate reading and writing across the curriculum. In addition to teaching science content through reading and writing, we will be practicing the engineering process and scientific method via hands on activities, experiments, and STEM projects. In Social Studies we will learn about the history, geography, government, and economy of the United States through various readings, stories, writings, and many interactive activities. Beside the four core subjects your child will be attending Art, Gym, Music, and Technology classes to further enhance his/her educational and life skills. We believe that you are the primary teachers of your kids, for that we would like you to support our efforts at school by reading and encouraging your child/children to read on a daily basis for 25-30 minutes. Additionally, check your child's planner daily as it is one of the communication measures we take at school. Most importantly, send a healthy snack (vegetables, fruits) daily with your child. We would like to thank you for taking the time to read our 4th grade news. Please, do not hesitate to share your concerns, questions, suggestions, and ideas with us. We are one team!

Respectfully, 4th Grade Team!

Fifth Grade:

Happy Return to School!

Hello 5th Grade Families! We are delighted to have you with us after a restful and warm summer. The year is already underway in 5th grade! Students have kicked off the fall assessments in style by completing 4 different NWEA tests as well as a DRA reading assessment. We truly want to ensure that your knowledge from 4th grade has carried over and you're ready to ignite your brain this year! We spiral a lot of content in 5th grade to ensure your mastery before middle school. Parents, we'd love for you to get involved! Assisting your child with their learning plan and checking the iblogs regularly will ensure we help each and every one of our kiddos do their best! It takes a village :-)

In math we will be covering prime and composite numbers, factoring, identifying inverse operations, and place value. In science we will be reviewing the scientific process prior to getting into the states of matter. In social studies we will be navigating reference materials before learning about the nation's first peoples. In language arts we will be reviewing different reading strategies that enable us to become better learners. Our core goals of knowledge are comprehension, accuracy, fluency, and expanded vocabulary. We will also be working to analyzing written text to support our own understanding and writing. Bi-weekly word list have gone home and are our spelling and vocabulary words. Please discuss these with your child at home and let them share all the amazing things they have uncovered in the classroom!

Together in Teaching, The 5th Grade Team.

Elementary School Specials:

Gym: Greetings Lowrey Families and students,

My name is Mr. Loconsole and I am happy to be back for another year of elementary physical education. The students have been off to a great start learning classroom procedures and routines. For the first card marking period, students will be starting their soccer unit. They will be learning the different skills such as the foot dribble, pass, and instep kick. Students will also be learning the importance of respect, teamwork, and sportsmanship. The 4th and 5th grade classes will also be participating in the 13 and 15 minute run fitness test. Also, I am pleased to announce our fourth and fifth grade students will be participating in the 7th annual Cipriano run, which will take place on Monday, October 15th at Ford Field Park in Dearborn. A permission slip with information will be sent home with students within the next week. Thank you and looking forward to a great year!

Music: The beginning of the year is an exciting time in the music room! Our kindergarten musicians are just beginning to learn about school, and have begun their musical journey as well. We have talked about rhythm, played some instruments, become Conductors, and even turned ourselves into a drum set! First, second and third grade are beginning to learn how to read and write ionic and musical notation and fourth grade is getting ready to start playing recorders. Finally our fifth grade musicians are helping to design the music room and beginning to work on music for a concert later in the year.

We have a great year ahead of us, here we go!!!

Jon Ochoa, Lowery elementary music teacher.

Sixth Grade:

Language Arts: Welcome back to another wonderful year here at Lowrey Middle School. We could not be more excited to start the school year with our new 6th graders. As you know, starting middle school comes with lots of change. Over the past month, we have been working hand in hand with our students to get to know each other. We have done multiple hands on activities to build a strong bond to take us throughout the school year. Our students have learned to transition from class to class, open their lockers, and even make new friends. We have focused on completing our fall NWEA testing, and creating Fall goals. Once the Reading and Language Usage NWEA assessments are complete, we will move right into our Genre Unit, working in our stations, writing our journal squares, and learning new Greek and Latin root words. ELA students this year will also transition from Daily 5 Cafe to Readers Apprenticeship. You can keep in touch with both of our 6th grade Language Arts teachers through their iBlog, REMIND application, and email via Lowrey's School Blog.

Social Studies: Welcome back! The 6th grade Global Studies teachers are so excited to meet and get to know our incoming 2018-2019 sixth graders. This is such a pivotal time for them moving forward in their educational careers! The students are slowly transitioning in the mode of rotating to and from their lockers and learning the classroom norms and expectations here at Lowrey Middle School. Throughout the first month of school we have been introducing to them the school norms and procedures, the resources that are available to them, and helping them with their organizational skills. We have started learning about many historical events, completed surveys, read paired-passages, and setting personal and educational goals for themselves. If you would like to get in contact with us and stay up to date with important information, please check out our iBlog sites, the Remind App, and email via Lowrey's School Blog. .

Math: Welcome back! We are so excited for this 2018-2019 school year! Students have completed the Fall NWEA test. For the first few weeks, we have been focusing on organization, classroom procedures and expectations, and building responsible and respectful communities. We have been reviewing some basic skills from 5th grade as well. Students are now beginning work on our Number System and Ratios and Proportions units. Students should be completing their Khan Academy, IXL assignments and practicing iLearn on a nightly basis. Math teachers work hard to keep their iBlog updated. Students should utilize their planners and the blogs in order to keep up with their assignments.

Science: Welcome Back! The science teachers at Lowrey are so excited for this school year! Students are off to a great start and have been working on many things. For the past month we have been working on classroom procedures, expectations and policies. The students have been doing great considering that they have had to adjust to middle school life. We have started the curriculum teaching the Engineering Design Process. This allows for students to think and problem-solve like engineers by doing the "Saving Sam" activity. You can keep in touch with us by visiting the iBlog. Looking forward to a wonderful year filled with learning and exploring!

Seventh Grade:

Language Arts: Seventh grade students spent their first week reading through the Lowrey Code of Conduct, discussing the important issues in the Code of Conduct, supporting their opinions about the Code of Conduct (with evidence!), and tackling some of the trickier vocabulary in the Code of Conduct. We also spent a week on NWEA testing (Reading and Language) so we can get a clear picture of where the students are at the moment. Please check the teachers' blogs each and every night, or, better yet, subscribe to the blog so that you will always get updates for anything new. Looking forward to a great year!

Science: Welcome back! We are looking forward to a great year. Students have completed the NWEA science testing and are now learning about the engineering design process. They will be planning, designing, sketching models, and building prototypes as they learn how to think and work like engineers. We have been focusing on teamwork, collaboration, and working together effectively to problem-solve. Please let us know if you have any questions or concerns through iBlog, Remind, or email! Middle school students are off and running having completed their Fall 2018 baseline data of the NWEA assessments. Several Engineering skills have been started such as; Aerodynamics use of paper airplanes, Heat related studies "Baby in a car", and "Building a circuit". The Lowrey Middle school science department is looking forward to a stellar year of excitement and discovery for your children.

Math: Welcome back, students and parents! Students have been working on classroom procedures and expectations, as well as completing their Fall NWEA assessment. Students have started their first unit on Number Sense, which includes adding, subtracting, multiplying and dividing integers. Additionally, students will begin performing these operations with fractions and decimals. Please let us know if you have any questions or concerns through iBlog or email!

Social Studies: Off to a great start. We are reviewing map skills, and starting with chapter 2 Early Human Migration. Please be sure to sign up for our blogs to stay informed about all assignments.

Eighth Grade:

Social Studies: Welcome back students and staff to another exciting year at Lowrey Middle School. This year, in 8th grade, Social Studies will focus on United States History. This is an exciting topic and is easy relatable to our students. There will be plenty of opportunities for students to be able to share their insight and their opinions on various topics throughout the course of this school year. We will start off by studying the US geography of today and we will break it down all the way to the very beginnings of our nation's history. We hope that all of our students will enjoy this year's curriculum and that we will all see great success!!

Language Arts: Eighth-grade English Language Arts began the year with testing to find out students' skill levels. The test results will determine the starting points from which to measure students' progress in reading and writing and will also point out the skills that need to be taught for improvement. Based on the M-step results from seventh grade, teachers have already determined

that emphasis needs to be given to vocabulary. An entire week has been devoted to taking the NWEA to see how well students are doing in reading and language. This will help us identify teaching points for our students.

Math: For 8th grade Pre-Algebra class, we will be implementing a new program (Ready Common Core) for this year; it will include an instruction book which is kept with the student, and a practice book which is kept in class. Homework will be assigned from the practice book.

In class, we started practicing the class routines while using these books which focuses on:

1. The use of best practices during a Ready mathematics lesson.
2. Identify and explain models or strategies used to solve problems.
3. Critique and compare solution strategies of others and those provided in Ready.
4. Use math talk practices to efficiently share and compare strategies for solving problems.
5. Apply math knowledge and modeling techniques to new, similar problems.

For advanced math (Algebra 1), we are now working on the first unit : Function Essentials, and the number system. Weekly assignments on IXL or Khan Academy will be given to students to practice concepts given in class.

Science: Middle school students are off and running having completed their Fall 2018 baseline data of the NWEA assessments. Several Engineering skills have been started such as; Aerodynamics use of paper airplanes, Heat related studies "Baby in a car" and "Building a circuit and saving Sam". The Lowrey Middle school science department is looking forward to a stellar year of excitement and discovery for your children.

Middle School Specials:

Gym: We would like to introduce ourselves since this is our first year here as Physical Education Teachers at Lowrey Middle School. We are happy to be here and can't wait to see what the year has to offer in our Physical Education classes. Throughout the year, we will cover plenty of team sports (football, soccer, hockey, basketball, swimming, etc), cooperative games, health, and much more. We will be rotating units to make use of our gym and outdoor space. We ask that you please make sure your children have a change of clothes for gym, as it is part of the their participation grade. As fall is approaching, we also ask that student dress for the weather since we do go outside anytime it's over 30-40 degrees if we have an outdoor activity for that day. Having a extra sweater or jogging pants is a good idea. Please feel free to email us via our school blog. Mrs. Suttles, Mr. Waddell, and Mr. Williams.

Computer Applications: Currently, 7th and 8th Grade Computer Application students are working on building and designing their own student site/blog to share their daily learning. This has given students the opportunity to express and reflect on their learning in the classroom. In addition, using a variety of site features, students are creating a site that speaks to their character. Students are also working on developing their understanding of a digital footprint through a variety of activities. Lastly, students continue to work on increasing their words per minute. Our classroom goal is to have every student typing 30 words per minute or more by the end of the semester. Mrs. Al Raishouni
